

Līva Trasūne

Curriculum Vitae

Name, surname in original writing (Latvian): Līva Trasūne

Location: Helsinki, Finland

Phone: +371 26618551; +358 458043005

E-mail: liva.trasune@gmail.com

Web Pages: <https://github.com/livatras> ; <https://orcid.org/0000-0001-7843-1378>

EDUCATION

01/2022–06/2026, PhD Geosciences, University of Helsinki, Helsinki, Finland

- Thesis: "*Reconstructing late Quaternary climate patterns from northern European plant macrofossil records*" (In English) <http://hdl.handle.net/10138/630514>

2019–2021, MSc Geography, University of Latvia, Riga, Latvia

- Thesis: "*Modern and palaeoclimate reconstructions using CRACLE as climate reconstruction method*" (in Latvian) <https://dspace.lu.lv/dspace/handle/7/54567>

2016–2019, BSc Environmental Science, University of Latvia, Riga, Latvia

- Thesis: "*Palaeobotanical and palaeoecological evidence of human activity in sediments of Lake Āraiši*" (in Latvian) <https://dspace.lu.lv/dspace/handle/7/48409>

2011–2015, Graphical Design, Riga Secondary School of Arts and Crafts, Riga, Latvia

WORK EXPERIENCE

01/09/2021–31/08/2025, Doctoral Researcher, Department of Geosciences and Geography, University of Helsinki, Helsinki, Finland

- Data acquisition via scientific community or digital databases, data analysis using Python and R, writing, literature analysis, teaching.
- Within Research Council of Finland project "*Climate shocks: exploring abrupt events in the palaeoclimate record*" (WBS 1336442).

12/2020–08/2021, Project Assistant, University of Latvia, Riga, Latvia

- Collection of lake samples, gathering climate data, and conducting data analysis using R software, writing, literature analysis
- Within Latvian Council of Science project "*Establishing training data set of pollen and non-pollen palynomorphs for Latvia – a fundamental ground for climate,*

landscape, vegetation and water quality reconstructions and modelling" (No. lzp-2020/2-0060).

03/2020–06/2020, Geographic data analyst, SIA "SunGIS", Valmiera, Latvia

- Electric, water, waste-water communication network mapping and processing for municipalities using GIS (QGIS).

07/2018–08/2018, Archaeological excavation assistant, Center for Baltic and Scandinavian Archaeology, Schleswig, Germany

- Organic sample collection from archaeological excavation site in Mazsalaca, Latvia;
- Within German Research Council project "*Rīņņukalns, ein neolithischer Süßwassermuschelhaufen im Norden Lettlands und seine Bedeutung für die steinzeitliche Kulturentwicklung im östlichen Baltikum*" (DFG, No. 335674082) and University of Latvia base project "Letonica, diaspora and intercultural communication" (No. ZD2015/AZ85).

01/2018–06/2018, Laboratory assistant, University of Latvia, Riga, Latvia

- Chemical and physical analysis of fen peat;
- Within the European Regional Development Fund project "*Innovative use of fen peat in environmentally friendly applications*" (No. 1.1.1.2/VIAA/1/16/008).

03/2016–04/2017, Graphic Designer, SIA "SGUAR", Riga, Latvia

- print and digital material development, layout design.

KNOWLEDGE AND SKILLS

Language skills:

- Latvian: native
- English: advanced

Soft skills:

- experience in public speaking and teaching (both in English and Latvian)
- collaborative work and team leading in research environment
- problem-solving

Digital and other education skills:

- GIS software (QGIS, GrassGIS, ArcGIS)

- Vector-based (Corel Draw, Inkscape, Adobe Illustrator), raster-based (Gimp, Adobe Photoshop), and layout design (Adobe InDesign) graphical software
- Text (LibreOffice Writer, Microsoft Word), presentation (LibreOffice Impress, Microsoft PowerPoint), and data analysis (LibreOffice Calc, Microsoft Excel) software.
- Programming (Python and R)
- Linux OS environment (Ubuntu, Fedora). Some knowledge with Microsoft OS and Mac OS.
- 2019. **Certificate of Achievement.** *Echoes in Space: Introduction to Radar Remote Sensing*, EO college

PUBLIC SPEAKING

2025 Oral presentation: Trasune et al. *The potential of Dynamic Calibration Region approach in plant macrofossil-based palaeoclimate studies*. Geodays 2025, Oulu, Finland.

2024 Oral presentation: Trasune et al. *Reconstructing palaeoclimate with plant macrofossils: a methodological overview*. Geodays 2024, Turku, Finland.

Poster presentation: Trasune et al. *Summer and Winter Temperature Trends in Subarctic Europe During the Younger Dryas*. AGU 2024, Washington, DC, USA.

2023 Oral presentation: Trasune et al. *Indication of warm summers during Younger Dryas in the Baltic States region*. 81st International Scientific Conference of the University of Latvia, Riga, Latvia.

Oral presentation: Trasune et al. *Younger Dryas summer temperature trends in the Baltic States region based on plant macrofossil data*. Geodays 2023, Helsinki, Finland.

Poster presentation: Trasune et al. *Plant macrofossil-based Lateglacial temperature seasonality reconstructions for the Baltic States region – a methodological comparison*. INQUA 2023, Rome, Italy.

Poster presentation: Trasune et al. *Plant Macrofossils as Seasonal Temperature Proxy for Non-Analogue States: a Comparative Study of Climate Reconstruction Methods*. AGU 2023, San Francisco, CA, USA.

2022 Oral presentation: Trasune et al.,. *Lateglacial seasonal climate signals reconstructed from the palaeobotanical data of the Baltic states region*. The 35th Nordic Geological Winter Meeting 2022, Reykjavík, Iceland.

Oral presentation: Trasune et al., *Lateglacial seasonal climate signal reconstruction for Baltic States region using plant macrofossil data: current progress and obstacles*. Arctic Avenue Winter Meeting, Kilpisjärvi, Finland.

- 2020** Oral presentation: Trasune, L. *Paleoclimate reconstruction for Lake Āraiši: first results* (in Latvian). 78th International Scientific Conference of the University of Latvia, Riga, Latvia.
- 2019** Oral presentation: Trasune L., Stivrins, N. *Evidence of land use changes in the vicinity of Lake Āraiši during the last 1300 years* (in Latvian). 77th International Scientific Conference of the University of Latvia, Riga, Latvia.

SCIENTIFIC PUBLICATIONS

- 2026** Trasune, L., Salonen, J.S., Stivrins, N., [...], Schenk, F. 2026. High temperature seasonality as a signature of late-Quaternary AMOC weakening in Northern Europe. *Quaternary Science Reviews*. <https://doi.org/10.1016/j.quascirev.2026.109843>
- Trasune, L., Orozco, L.E., Salonen, J.S. [...], Heikkilä, M. (2026). A comparison of Holocene temperature reconstructions from vegetation proxies and brGDGTs in northern Fennoscandia. *Quaternary Science Reviews*, 372.
